

Ursuline College Sligo

Anti-smoking Policy

Within the context of the school's mission statement and ethos, policies regarding Health and Safety have been formulated. An anti-smoking policy forms part of these policies.

- Smoking is not allowed in the school or in the school grounds.
- Smoking is a serious health issue. Given the seriousness of smoking in public places and the severity of the fines, students found smoking in the school will be suspended.
- Anti smoking signs are posted throughout the school to remind all members of the school community that smoking is forbidden on the school campus.
- The SPHE programme seeks to educate students in the health issues relating to smoking.
